In this college is noted for having a high proportion of female students enrolled. The bulk of the female students came from a middle-class farmer background. Girls were not previously sent to college for regular classes. However, since the institution made an effort to increase the enrolment ratio of female students by conducting, encouraging their parents, and frequently visiting nearby higher secondary schools to introduce the scope and importance of education to parents and students, the enrolment ratio of female students has increased significantly. As a result, the college was able to boost the number of female students enrolled.

In this direction our institution follows “Beti Bachao Beti Padhao Abhiyan”. Now a days the enrolment ratio of girl students is increasing year by year.

The number of percentages of male and female students with respect to the total number of students admitted to this college.
